ABOUT SGI

IOT

Connecting devices and systems

RTLS

Real-time visibility for people & assets

RFID

Smart identification and automation

GPS TRACKING

Track anywhere, anything

SMART SENSORS

Monitor environment in real time

Connecting Assets. Empowering Intelligence.

PT Sejahtera Global Integrasi (SGI) is a technology company specializing in IoT, RTLS, RFID, GPS Tracking, and Smart Sensor solutions. We help organizations gain real-time visibility, improve operational efficiency, and accelerate digital transformation through integrated hardware, software, and cloud platforms.

From manufacturing and logistics to healthcare and smart buildings, SGI delivers scalable solutions that connect people, assets, and infrastructure into one intelligent ecosystem.

With more than a decade of experience and hundreds of successful deployments, we are committed to delivering innovative solutions, reliable technology, and measurable value for every customer.

COMPANY PROFILE

2026

Our fleet and asset monitoring stack turns raw telemetry into decisions your operations team can act on in real time.

FUEL SENSOR

FUEL SENSOR

Real-time fuel-level monitoring that shuts the door on siphoning and unexplained losses.

Real-time Monitoring

Theft Prevention

Accurate Reporting

Fuel Usage Optimization

CEGAH PENCURIAN

AXLE LOAD SENSOR

AXLE LOAD SENSOR

Live axle-load readouts that keep fleets within legal limits and protect vehicles.

Overload Prevention

Compliance Assurance

Vehicle Protection

Operational Efficiency

KONTROL BEBAN

ASSET MONITORING — WHAT YOU GET

- ✓ Theft prevention
- ✓ Process automation
- ✓ Always-on visibility
- ✓ Cost control
- ✓ Instant alerts
- ✓ Supply chain optimization

END-TO-END ASSET FLOW

REAL-TIME VISIBILITY.
SMARTER DECISIONS.
BETTER OUTCOMES.
